

CORDLESS ANGLE GRINDER BRUSHLESS MOTOR

AGB L20
AGB 125 L20

ADVANTAGES

- 18V Cordless angle grinder with a powerful brushless motor with no carbon brushes.
- 5 speed levels for all kinds of jobs: 2700/3500/4600/5600/6800 rpm
- Safety paddle switch. If the paddle is released the tool activates it's automatic brake to stop the disc within 2 seconds. This avoids accidents in case of unintended stops, drops or releases.
- Safety clutch against disc clogging, sticking or stopping. The clutch protects the user avoiding injuries caused by the tool's yanking if stuck.
- Optimal refrigeration with metal grids that prevent dust entering the engine
- Powerful brushless engine that increases efficiency, battery duration and tool's lifespan while significantly reducing overheating.
- Electronic system to maintain the tool's speed under heavy workloads.
- Adjustable handle to both sides, ergonomic thin design for maximum comfort.
- Soft start to avoid the tool's yanking, creating a safer workplace and making the work more comfortable

DATA SHEET

Lithium battery voltage	18 V
Battery capacity	4.0 / 5.0 Ah
No load speed	2700 - 6800 min ⁻¹
Battery charge time	60 min
Disc diameter	Ø 115 / 125 mm
Spindle thread	14 M
Weight	1.8 Kg
