

**WELDING**

## DUTY CYCLE 60% MIG 200 MULTI

### ADVANTAGES

- Electronic equipment for wire welding (MIG-MAG-hollow wire), TIG and coated electrode.
- Robust construction exceeding European specifications 2011/65/EU, 2014/35/EU, 2014/30/EU and EN/IEC 60974.
- New professional reel holder with capacity for large reels (15Kg).
- Precision drive mechanism with powerful 60W motor. 0.8mm / 1.0mm roller.
- Easy to regulate: Classic analogue controls for precision adjustment of current, tension and wire speed.
- Quick and easy polarity reversal for welding with any type of hollow wire.
- Wire feed button for convenient torch feeding.
- Lightweight and small for its performance, 4 swivel castors and ergonomic carrying handle.
- MMA (coated electrode) mode includes Hot Start, Arc Force and Anti Stick advantages to optimise initial arc striking, improve arc stability during welding and prevent electrode sticking due to mishandling.
- Fully safety-ready equipment with stabilised generators, AVR and Inverter.

Torch  
Included  
15AK

### DATA SHEET

Amperage	<b>200</b> A
Wire	<b>0.6 - 1.0</b> mm
Coil	<b>5 - 15</b> kg
Electrode	<b>1.6 - 5</b> mm
Weight	<b>22</b> kg
Power supply	<b>230</b> V
Generator	<b>7 - 9</b> KVA
Dimensions	<b>23 x 50 x 36</b> cm
DINSE connectors	<b>ø 1/2" (35 - 50)</b>

### EQUIPMENT

- Power cable / Pure copper.  
3m x 2,5mm<sup>2</sup>
- Earth cable with clamp / Pure copper.  
3m x 25mm<sup>2</sup>
- Electrode cable with clamp / Pure copper.  
3m x 25mm<sup>2</sup>
- External wire winder 15kg
- Wire torch 15AK / 3m.
- Wheels.

Pure copper 3m | Pure Copper 3m
