

RANDOM ORBIT SANDER

RO 2.5 BRUSHLESS

ADVANTAGES

- 7 Speeds digital regulator : 4000/ 5000/ 6000/ 7000/ 8000/ 9000 & 10.000 rpm. To adapt te working speed to the surface to be sanded or polished.
- Tacometer to keep a constant speed even under heavy work loads to avoid the tool stopping.
- 2.5 mm orbit, for very fine finishes, specially designed for car bodywork (damaged surfaces, paint before primer, primer before varnish). It also excels in wood treatment (sanding of coarse surfaces, varnish and paint) as well as plasterboard and Corian worktop preparation.
- Powerful 400W brushless motor (without carbon brushes) which increases the tool's lifespan while making it more powerful and lighter, suitable for intensive sanding on any kind of surface: wood, metal, stone. Ideal for carpentry and woodworking jobs, bodywork, and Corian counters.
- ø150 mm plate with 15 vacuuming holes for an optimal, safer and cleaner workplace.
- Paddle switch and anti-sliding handle, for maximum comfort while working while being safer as the tool stops as soon as the user releases the handle.
- Lightweight, close to 1 kg, and ready for dust extraction.
- Symetrical structure, makes the tool useable with both hands indistinctively, reducing effort and fatigue while making the work easier .

DATA SHEET

Power	400	W
No load speed	4000 - 10000	min ⁻¹
Plate diameter	ø150	mm
Orbit	2.5	mm
Weight	1.28	kg

INCLUDED

- Self adhering plate
