

SCREWDRIVER

384 B

ADVANTAGES

- Electric screwdriver with a powerful 600W motor and a HEX 1/4" insertion.
- Specially designed for assembling and screwing on drywall.
- Depth regulator on the screwdriver's head for maximum screwdriving control when working on thin or fragile materials.
- Reversible by lever on the trigger for an easy and quick change from screwing to unscrewing without having to stop the tool or work.
- Trigger lock button for long works, so the user does not have to constantly press the trigger.
- Belt clip, to easily carry the tool around while not using it.
- Anti sliding ergonomic handle to avoid accidents while working.
