

## SDS PLUS ROTARY HAMMER HD 27 CK

### ADVANTAGES

- 800W light rotary hammer with SDS-PLUS insertion, 3 functions:

1. Rotary: for metal, wood and plastic.
2. Impact rotary: for construction materials.
3. Chiseller: for stone and construction materials.

- Vario-Lock built-in system to adjust the chisel position while the rotary hammer is in chiseller mode.

- Speed regulator to better adapt to each task.

- Safety clutch: if the bit gets stuck or blocked in the material, the tool clutches to avoid yanking accidents.

- Reversible rotation, system that increases the tool's grip and power.

- The adjustable auxiliary handle allows the user to adapt to each work and to safely reach hard areas. The depth regulator enables maximum precision.

- For  $\varnothing$ 4-26 mm (most suited for  $\varnothing$ 4-12 mm.) concrete and masonry anchoring.
