

WOOD PLANER

P 910 B

ADVANTAGES

- 900W electric planer with a planing width of 82 mm, for smoothing and levelling surfaces of all types of wood.
- Belt motor reduces machine noise and vibration while extending tool life.
- Front handle with quarter-millimetre thickness control adjustable from 0 to 3 mm.
- Specially designed for work on hardwood surfaces.
- Integrated vacuum for continuous planing work, the tool can be connected to an external Hoover to improve cleanliness in the working space.
- Ergonomic handles for a firm and secure grip when planing, leaving a perfect finish.
- Easily interchangeable 82mm blade system.
