

DRUM SANDER

LSR 1200

VENTAJAS

- Light drum sander assembled with the body of an angle grinder. Ideal for polishing, satin finishing, metal matting, rust removal on all types of metals, as well as treatment of wood and plastics.
- Adjustable speed via electronic speed control from 1000 to 3000 rpm for precise tool control and maximum suitability for the material to be processed.
- Electronic constant speed system via tachometer, the tool is able to maintain the selected speed regardless of the workload or the pressure exerted on the drum.
- Slow start (Soft Start) to avoid fatigue, injuries and accidents at work as well as facilitating a correct start of the task.
- Spindle lock for quick and easy change of the work rollers.

DATA SHEET

Power	1300	W
Idle speeds	1000-3000	min ⁻¹
Tool diameter	Ø125	mm
Tool width	100	mm
Disc arbor	M8	M
Weight	4.1	kg

INCLUDED
-Abrasive roll
