

## ORBITAL SANDER

### LOM 230

#### ADVANTAGES

- Orbital sander with 400W motor for sanding wood and plasterboard.
- Base made of aluminium to give the tool superior strength and lightness.
- Switch with locking button for long-lasting work.
- Optimum cooling to reduce heat build-up.
- Counter-balance anti-vibration system.
- Double clamping system: with clamps and reinforced self-adhesive plate to avoid breakage during sanding.
- Prepared for dust extraction, including dust collection tank.

Clamps for non  
adherent sandpapers

Dust bag

Counter balanced masses  
reduced vibration system

Self adherent plate
