

## HAND WALL SANDER

### HP 1010 BE

#### ADVANTAGES

- Hand wall sander with 1010W motor and built-in vacuum system for dust extraction.
- Removes plastic paint, stipple and flattens plaster and dry walls.
- Horizontal motor for compact and ergonomic design to fit in narrow areas.
- Adjustable sanding plate height to suit different surfaces and materials.
- Designed to extract dust while sanding, it is prepared to attach an external Hoover.
- Lightweight, capable of sanding entire walls, excels at sanding corners and edges, as well as hard-to-reach areas.
- Detachable carter for easy access to edges and corners.
- 6 speed regulator to suit every task.

Cod. 1.2129
