

## SOLIDS & LIQUIDS VACUUM CLEANER

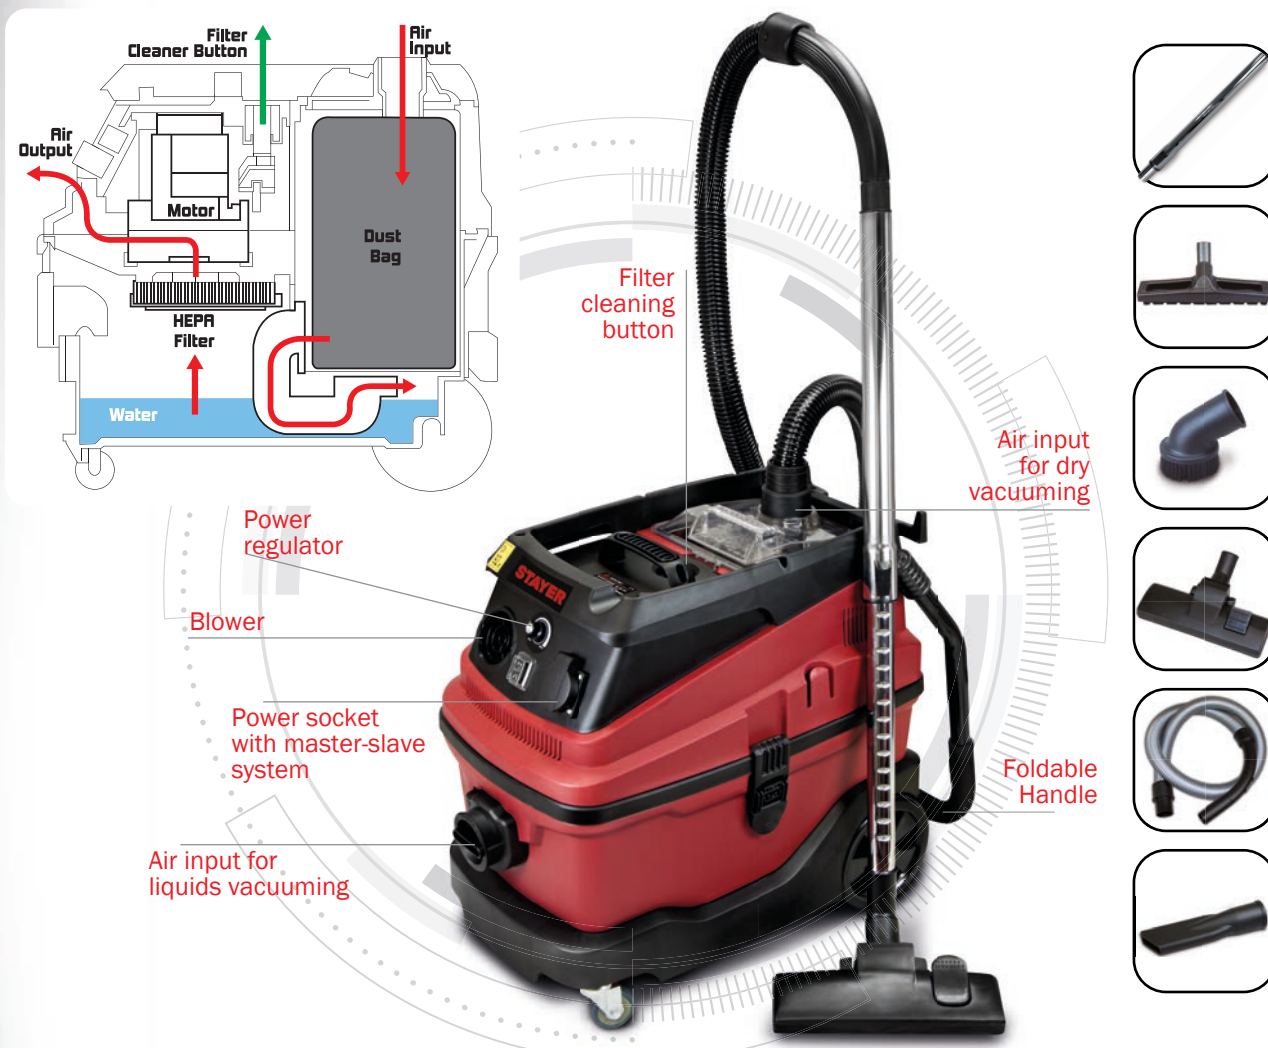

### BVAC 2200 E

#### ADVANTAGES

- 1600W professional vacuum cleaner with HEPA filter for solids and liquids, specially designed to be connected to other tools to vacuum the dust they generate during work such as hand or wall sanders.
- Integrated power connection with auto start for tools (2200W): When you operate your tool the vacuum cleaner will automatically start at the same time for a clean and continuous work flow.
- 8 second shut-off delay for complete vacuuming of debris, ensuring that no debris is left inside the tube or on the tool when the job is finished.
- Electronic power regulator to adjust the vacuum cleaner to the type of work to be carried out.
- Integrated blower function to remove dust from hard to reach areas.
- Semi-automatic filter cleaning system: blocking the suction tube while pressing the cleaning button.
- The vacuum cleaner includes a complete set of accessories including a set of 4 wheels for easy transport and handling.
- Industrial vacuum cleaner, the HEPA filter allows the suction of dust, pollen and mites as well as wet surfaces. it is resistant to corrosion and dirt.
