

DIE GRINDER

SD 150 B

ADVANTAGES

- Die grinder with powerful 1100W motor for grinding wheels up to $\varnothing 150$ mm.
- Specially designed for heavy duty grinding and polishing of metals.
- Paddle switch with safety lock button to prevent unintentional operation.
- Suspension strap attachment for comfortable operation of the tool without having to hold the entire weight in your hands.
- External brush change for easy and smooth operation.
- Soft start to avoid jerks, full performance is reached after 2 seconds.
- Reset protection system. If the tool loses power due to a power failure, the power button must be deactivated before it can be reactivated once power has been restored.
