

HOT AIR GUN

DX 1800

ADVANTAGES

- Hot air gun with 1800W motor, capable of reaching 600 C°.
- Particularly suitable for drying, pickling, paint stripping, removing adhesive materials, removing rusty screws, lighting charcoal and moulding plastic materials.
- Long-lasting ceramic heating element and resistance to reach high temperatures in a few seconds and to maintain them during the whole working process.
- 2 working modes to suit the work to be done:
 - Mode 1: 350°C - 300 l/min
 - Mode 2: 600°C - 500 l/min - 1800W
- Head with reinforced thermal protection against high temperatures to extend the life of the tool and provide greater safety for the user.
- Anti-slip design for greater safety to avoid unintentional falls.
- The stripper comes with 3 nozzles and a spatula to adapt to all types of work.
