

MITRE SAW WITH TABLE SAW SC 210 CW

ADVANTAGES

- Portable mitre saw for $\varnothing 210$ mm wide discs with upper cutting table.
- Applications depending on the blade used: wood, aluminium, laminates, PVC and plastic.
- Structure and upper table made of aluminium to make the tool more robust and lighter.
- Versatile tool, it allows precise straight cuts, mitre cuts, bevel cuts as well as straight cuts on the upper table.
- Its different protection systems make it a safe machine, as its blade guards prevent accidental contact with the blade.
- Extendable scalimeter support to facilitate the cutting of long pieces.
- Vertical clamp to hold the cut piece.
- Rotating base with locking at $22.5^\circ / 45^\circ / 90^\circ$.
- Predisposed for dust extraction by connecting an external dust extraction system.
