

## GAS BRUSHCUTTER

### GAS CUTTER 52

#### ADVANTAGES

- Gas brushcutter with 1.25 Kw and 52 cc for use with nylon line and brushcutting disc.
- Powerful 2-stroke engine with a petrol to oil ratio of 40 : 1.
- The string brushcutter is particularly suitable for cutting grass and small weeds while the disc brushcutter is suitable for areas with obstacles as well as small bushes or larger plants.
- Double safety switch to prevent unintentional operation and accidents.
- Structure made of high-strength aluminium to guarantee maximum lightness of the tool without any loss of durability.
- Easy starting of the motor in all circumstances.
- Ergonomic design with balanced masses. The tool adjusts to the user's height and the rotating handles make work easier.
- Automatic wire feed when using nylon spools for easier and lighter work.
- Double harness to carry the tool easily while working, reducing fatigue.

#### DATA SHEET

Power	1.25 Kw
Displacement	52 cc
No load speed	3000 rpm
Cutting diameter with wire	ø440 mm
Support dimensions	ø26 x 1500 mm
Tank capacity	1200 ml
Weight	6.8 kg

#### INCLUDED

- Double harness
- Wire reel ø2.4 x 2500 mm.
- 3-blade disc ø255 mm.
- Protective casing
