

SOLIDS & LIQUIDS VACUUM CLEANER

BVAC 2240 V-SYSTEM

ADVANTAGES

- 1600W professional industrial vacuum cleaner with HEPA filter for solids and liquids, specially designed to be connected to other tools to vacuum the dust they generate during work such as hand or wall sanders.
- Integrated power connection with automatic start for tools (2000W): When you operate your tool the vacuum cleaner will automatically start at the same time for a clean and continuous work flow.
- Automatic LED indication of power cut-off when the water tank is full.
- Remote control for speed regulation.
- Integrated electronic power regulator to adjust the vacuum cleaner to the type of work to be done.
- Integrated blower function to remove dust from hard to reach areas.
- **Automatic filter cleaning system.**
 - The vacuum cleaner includes a complete set of accessories including a set of 4 wheels for easy transport and handling.
 - Industrial vacuum cleaner, the HEPA filter allows the suction of dust, pollen and mites as well as wet surfaces. It is resistant to corrosion and dirt.
 - Class M filtration system for dust $>0.1 \text{ mg/m}^3$.

Cod. 1.3768
